

June 7th, 2021

Valued North Dakota Counties,

I hope this letter finds you well as we've turned the calendar now into June. It is of no surprise that we are living in unprecedented times and this couldn't be even more evident with the unforeseen conditions that we are seeing in the steel industry. Going back to the fall of 2020 our raw material prices for corrugated metal pipe have more than doubled. At the end of last year, we were being told by our vendors that these increases would be short lived and that there would be some softening Q1 and at worst Q2 of 2021.

We have been monitoring these increases very closely and as I write this letter the price increase letters from our vendors continue to arrive. The factors for this dramatic rise in our costs are many but the overwhelming contributing factor is COVID-19 and its impact on the auto manufacturing industry. When the auto makers chose to shut down their production the steel mills followed suit and reduced their production capabilities as well. As the industry began to ramp back up late last year the mills have been slow to react and catch up, leaving us with high demand and low production capabilities of the mills. This general rule of supply and demand has driven our costs to levels like we have never seen and could not have reasonably predicted.

TrueNorth Steel has held off up to this point on increasing pricing on our North Dakota County bids through use of inventory material but unfortunately, we have depleted that stock and cannot provide new material at the previously supplied pricing. Effective immediately we are implementing new pricing on all new orders placed. You will find your updated pricing on the attached price list.

As stated above, we were optimistic that our raw material price increases would have subsided at this point for the year but that has not been the case nor does there seem to be any relief through the end of the year.

We value your business and always strive to treat our customers fairly and reasonably, so we take this action only because of the unprecedented and unforeseen circumstances. We encourage you to contact your TrueNorth Steel representative with any questions or concerns you may have.

Sincerely,

Jason Mayer

Eastern Region Sales Manager

TrueNorth Steel

NOTES:

- Prices include one truck full freight allowed to one location in the state of ND for every \$9,000 on individual order not including tax
- When additional trucks are needed and not covered by the "freight deal" freight is figured from Contech plant @\$2.46 per mile plus \$250 Trip Charge
- Lengths typically for 12" - 48" pipe (ft): 10, 20, 24, 30 - 14ft and 16ft frequently also available for 12" - 30" pipe depending on location
- Gauge: 16 gage galvanized is standard stocked gage and material. 14 & 12 gage are readily available
- 1" Corrugated pipe will be provided in the readily available options of either 3"x1" or 5"x1" unless expressly noted, and may effect lead-time.
- End Sections: 12" - 48" are stock items. Call for availability on larger diameters
- End Section prices *do not* include toe plates. Call for pricing and availability
- Multiply the above prices by 1.18 calculate Aluminized price
- Multiply the above prices by 1.36 calculate Polymer-Coated price
- Multiply the above prices by 1.75 calculate Riveted price
- Prices Subject to change without notice
