NOTES:

Prices include one truck full freight allowed for every \$12,000 on individual order not including tax. Additional drops are \$250.00 per drop.

Pipe picked up at a Contech Plant will receive an 8% discount

Lengths typically stocked for 12" to 36" pipe (ft): 16, 20, 24, 30 (10' and 12' will cut 20' and 24' as needed)

STOCK GAUGE/COATING: 16 gage aluminized only. Other gauges and coatings are readily available and made to order.

Bands to be provided in the readily available options of either hugger or annular unless expressly noted.

END SECTIONS (Galvanized): 12" - 48" are stock items. Call for availability on larger and smaller diameters

Prices Subject to change without notice

Box Culvert

Introducing Oldcastle Precast Concrete Box Culverts: Setting the Standard for Minnesota's Infrastructure Since 1974.

At Oldcastle, we revolutionized the design of precast concrete Box Culverts, spearheading their introduction and implementation in the State of Minnesota. In fact, we proudly manufactured and installed the state's very first concrete box back in 1974. Our expertise extends beyond the initial design as we played a key role in developing skewed box end sections, ensuring seamless integration with fill slopes, even in skewed or non-perpendicular installations.

Today, we continue to lead the industry with our state-of-the-art facilities, setting new benchmarks for efficiency in box production. Built with exceptional strength and durability, our precast Box Culverts offer a versatile and cost-effective alternative to traditional cast-in-place concrete bridges.

Choose from our extensive range of sizes to meet your project's unique requirements. Our Box Culverts can be installed in single, double cell, or multi-line configurations, providing flexibility and adaptability to any infrastructure project. Please reach out to one of our Sales reps for your box needs today!
